

INNOVATION. PRECISION. EXCELLENCE.

PathMaster X Windows® Programming Software

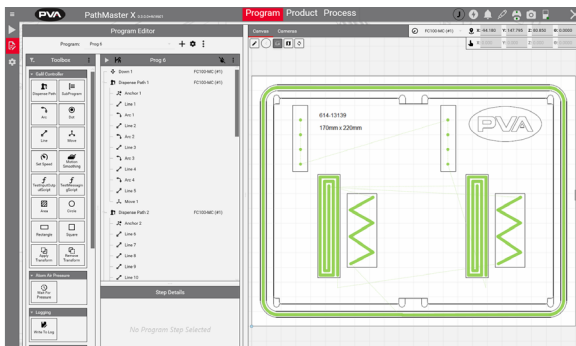

PathMaster X is the next generation of programming software designed exclusively for PVA's Direct Series Delta line. This Windows-based software offers more control and capability than ever with upgraded technology, enhanced programming features, an all-in-one programming and production environment, and a completely customizable platform that can be tailored to your production requirements.

Designed to increase programming simplicity, PathMaster X features a Windows® interface design with line-by-line editing and the ability to either drag and drop into a program or directly onto the canvas. Real-time tracking is available for whole or partial paths while in wet, dry, or camera program playback mode. Enhanced offline programming allows users the freedom to program from anywhere.

PathMaster X has many integrated features including:

- All the features and functions of PVA Portal and PathMaster in one streamlined application
- Language support for English, Spanish, French, German and Mandarin
- X-PAD multi-function machine pendant
- Full HD resolution touchscreen LCD display

For more information, please contact PVA at info@pva.net or contact your local representative.

PathMaster® and PathMaster X® are registered trademarks of Precision Valve & Automation, Inc. Windows® is a registered trademark of Microsoft Corporation.
