

INNOVATION. **PRECISION.** EXCELLENCE.

Valve Tool Changer

The Valve Tool Changer can accommodate four additional valves in the machine that can be automatically picked up and used at any time. Each valve is plumbed at all times assuring immediate availability with no manual changeover required.

Users can increase the number of applications without sacrificing valuable work area on their Delta 6 or Delta 8 workcell. Additional features and benefits include:

- Additional material and valve options
- Allows for processing of multiple chemistries, depending upon production demand
- Utilizes the entire available work area
- Integrated tooling ID ensures the correct tool is used for each application
- Improved machine versatility

For more information, please contact PVA at info@pva.net or contact your local representative.
